**Summary**

Hey Guys!

This is a very strong 1 inch pipe adapter for water pipes. I made this so i could use some old 1 inch water pipes as the legs of my new workshop desk!

You could probably also use this for a pullup bar or something similar...be creative!

The thread is a DIN G33.249x2.309 if you need a different thread let me know and i will update it with other threads!

Update 29.01.2024:

Added 2x Versions with no threads for OD fit.

Update 30.01.2024:

Added the 1" NPT.

**Print Settings**

- Printer brand:
  Bambulabs

Education

- Resolution:
  0.4
- Infill:
  35%
- Filament brand:
  E-Sun
- Filament color:
  Black
- Filament material:
  PLA+
- Notes:
  Wall Count: 6

  Infill: at least 25% the more the better!

  If it needs to hold some weight i really recommend using at least PLA+ or PLA tough!!!
